TÜRK PLAST

ABOUT US

ALIF PLASTIC INDUSTRY is a project of Mahmood Sons Group of Companies. The group was established in 1958 as Traders and Importers dealing in water supply piping systems along with sanitary and bath room accessories. Later on we extended our business in vast variety of local and all kinds of imported ceramic tiles, sanitary ware and bathroom utilities. Most recently the group has launched a new line of home décor, fancy lights fixtures and furniture as well. We have six large display centers operating in Lahore for providing sales and after sale services. The group is advancing and in process of opening more display centers in the main cities of Pakistan.

ALIF Plastic Industry is the pioneer and one of the largest manufacturers in Pakistan by producing TüRK PLAST PPR-C, U-PVC pipes and fittings, Electrical Conduits and PE pipes & fittings with the world's most sophisticated technology. With our Hi-tech fully automatic machinery and the highest quality standard of our products makes us distinctive in the industry.

Later the group achieved another landmark with a great pride by introducing a new product of TüRK PLAST GFR-PPR-C(Glass Fiber Reinforced) pipe for the first time in Pakistan with same international quality standards on our high tech facility located at 4 – km, Raiwind Manga Road, Lahore.

We also have a largest sales and after services network established throughout the country. Our goal is to provide the best quality product at economical price to our customers so that they can have the best of their value.

Another step of costumer care and love by announce our new product of Sanitary Fittings, faucets and shower sets.
